Endwood Ranch 2, 3, and 4 Rail Fencing

It's no secret, the best fence for the rustic open feel is the traditional Ranch Rail fence style. Enduris owes a lot to this favorite fence design as this was the first line of fencing that rolled out our doors back in 1998. The success of Ranch Rail is what ignited the path to where we are today.

The rustic woodgrain pattern found in wood which has always adorned country roads, is now available in our Endwood Ranch Rail products. This combines the long lasting, high performance of our traditional vinyl, with the old fashioned charm of wooden fences, yet with a larger profile, and of course, it is a rugged, hassle-free product which will never require sanding, staining, or painting. Don't fret over little critters such as termites, as our Endwood PVC ranch rail fencing is 100% inorganic and does not cater to pests or support mold growth. If that isn't impressive enough, we have backed it up with a 30 Year Fade and Stain Warranty. Not only will you enjoy the peaceful rolling fields and open spaces, but you will also get peace of mind.

Perfectly match or contrast with Endwood Privacy Fencing or Endeck® Decking

Endwood Ranch Rail is the next generation of an old tradition

- Endwood Ranch Rail is textured (solid or variegated color) for an authentic woodgrain look and feel
- Unlike most ranch rail which use a 1-1/2 x 5-1/2 x 16' rail, Endwood rails are 2" x 6" x 8' with two ribs .100 wall thickness, and tabbed for ease of installation
- Posts are 5" x 5", .150 wall thickness, and routed with varying lengths to accommodate 2, 3 and 4 rail installations
- The streaked and embossed natural finish blends easily into any surrounding
- ASA Hardcover™ capstock on all four sides provides superior protection and a 30 year fade and stain warranty
- Three colors options: Sequoia, Slate and Sable
- Perfectly matches Endeck decking and Endwood privacy fence styles
- Considerably stronger than traditional ranch rail

Sequoia

Slate

Sable

The High Performance, Premium Hardcover™ Technology capstock on all four sides provides an impressive 30 Year Fade and Stain Warranty

*Not intended for livestock containment
